[Borders also available]

Horizontal

Vertical

PLY & BATTEN CEDAR

Ply & Batten
Cedar battens
6mm Meranti Ply

RAISED PANEL CEDAR

Classic traditional "Raised Panel" on a strong, rigid framework

LOUVRE CEDAR

Profiled cedar boards to create the look of louvres while still being weather tight

* Cedar/Timber doors are made from a natural product. Colour variations will occur on every garage door. Dark stains/paints are not recommended for use on doors which face the sun.

FLATLINE SMOOTH

Available in 3 options:

- 0.75mm thick COLOURSTEEL® panel to provide a cost effective smooth door option.
- 0.95mm thick powdercoated panel designed to ensure a flat and true appearance in a wide variety of colours.
- 2.0mm thick powdercoated aluminium. The premium door ideal for coastal marine environments.

* Powdercoat colours come standard in Matt or Mannex finish. Gloss finish is not recommend and may void warranty.

ALUMINIUM COMPOSITE

Aluminium composite sheet (4mm thick) is bonded to either a rollformed steel or box section aluminium frame. Provides a very strong, flat panel that can handle the hard knocks.

Available in 'Metallic Silver'.

ALUMINIUM FRAME DOORS

A strong, rigid, corrosion resistant aluminium frame can be used as the backbone for a variety of claddings.

These can be either bonded to the frame face or glazed within the extrusion (similar to a window).

ROLLER DOOR RANGE

STEEL ROLLFORMED ROLLER DOOR
